

Peninsular & Greeley Improvements

Use the empty bank parking lot on weekends for a farmer's market.

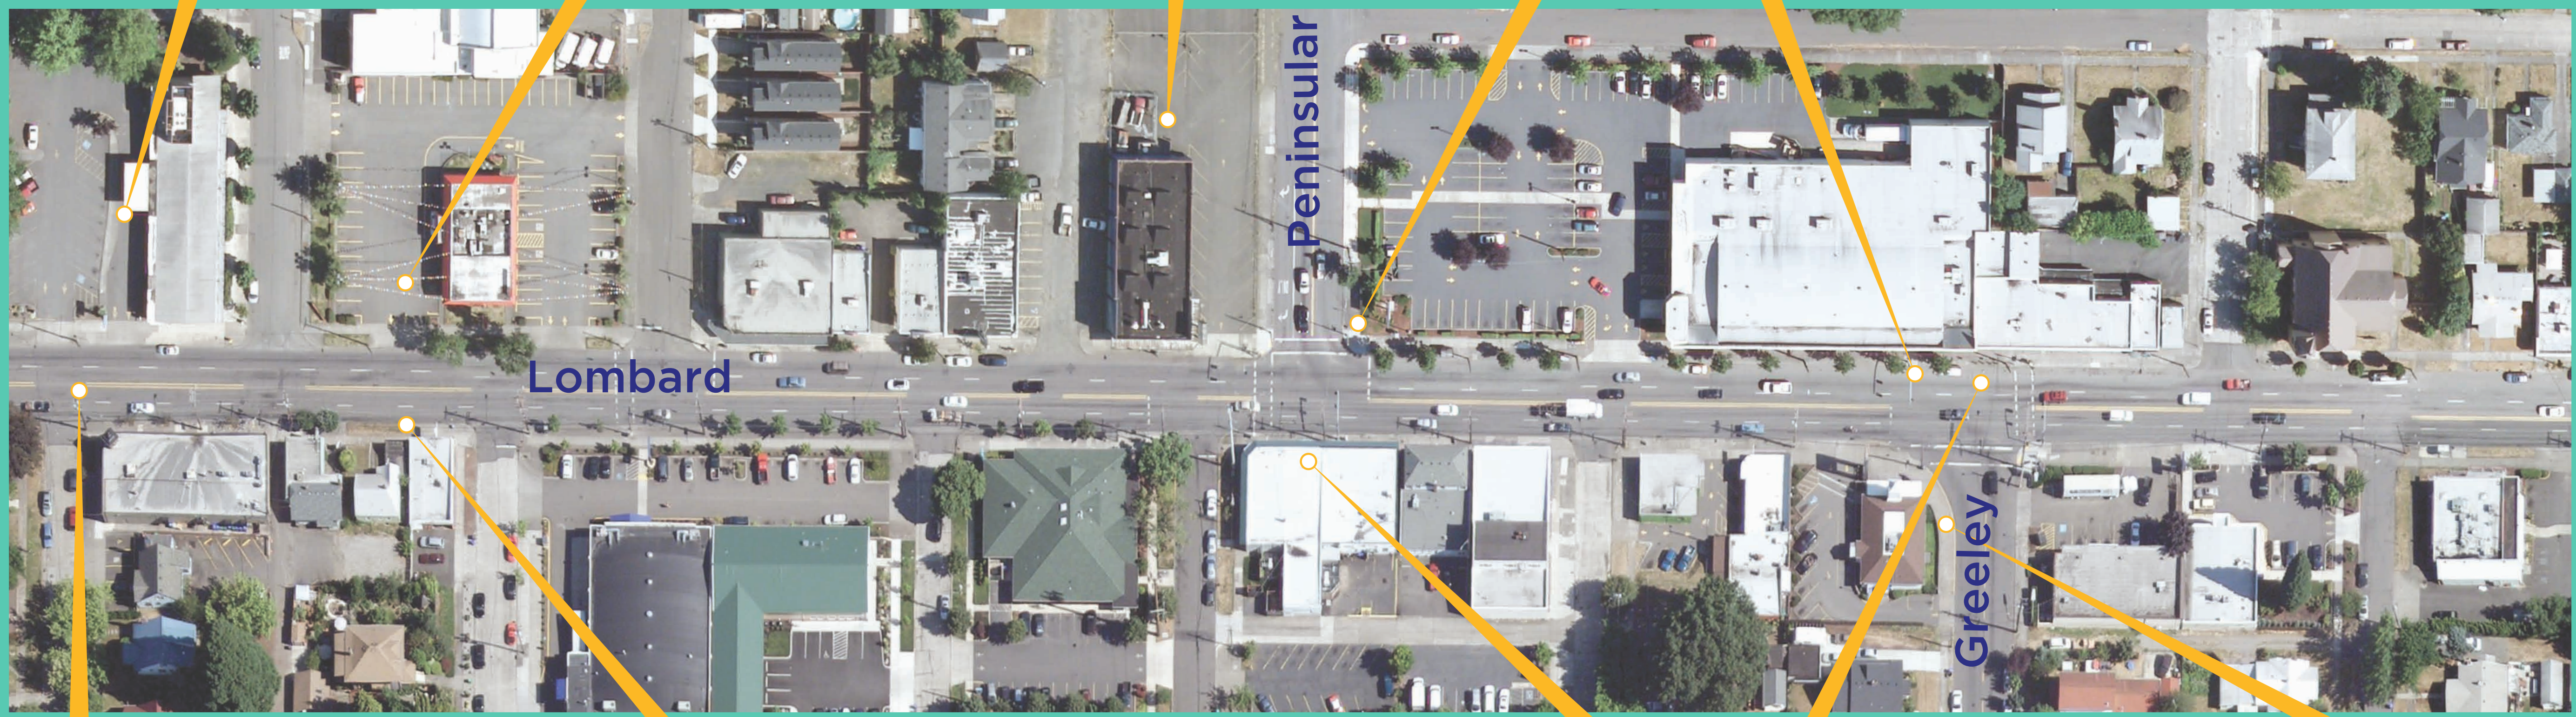

Close the Arby's driveways on Lombard and improve landscaping to create a more pleasant walking environment.

Use this parking lot space for greenspace and outdoor seating.

Add a third crosswalk at both Peninsular and Greeley to allow easier pedestrian access to bus stops, Walgreens, and other businesses.

Add on-street parking to the south side of the street to provide more convenient parking for business customers and to act as a buffer between traffic and people walking on the sidewalk.

Add bike corrals to provide needed bike parking for customers and employees of Lombard businesses.

Add welcome signs to replace the unsightly bollards at these key intersections to help reinforce the commercial district's identity.

Extend this corner out to create an attractive public space and improve pedestrian safety.
